This is a resource for the OFFICIAL CeVIO Installers for archival purposes. This does NOT offer cracked versions of the voice databases. This means you will have to activate full voice libraries. Keep in mind that some of the installers can be a bit outdated.
and note that it only includes CeVIO voicebanks, not Voisona stuff.

Changelog

05/08 - Kanato Mell, COKO and Ci flower Installers added.
04/10 - Visual changes on the spreadsheet.
04/10 - Takahashi and REML Installers added.
05/10 - Added the "Changelog" section.
15/11 - HARU Installer added.
2024/03/07 - Added marks for 2.0 installers.
2024/05/21 - Added marks for the upcoming Zundamon
and Shikoku Metan song voicebanks!
2024/06/20 - Added a Zundamon Installer!
03/07/2024 - Added the 2.0 installer links (including the metan installer)
9/10/2024 - UNI installer added
11/21/2024 - Soyogi Soyogi section added, no installer tho (yet),
and removed the "CeVIO Pro" and "Voisona" sections, as those sections weren't
updated for months.
11/24/2024 - Soyogi Soyogi's song and talk installers added!
and a minor redesign of the spreadsheet (also added the working links
for the 2.0 banks)
11/25/2024 - added more talk installers!
